Prog Keegan goes above and beyond the curriculum and explains the concepts in ways other than what is prescribed by the course. This allows students who are slower to catch up and easily understand the concepts at their own pace. His consult sessions are very flexible, and really helps students who are not able to attend the help sessions.
Very good.
Love the enthusiasm
Goes a bit too slowly to follow. Sometimes we just need to see the worked examples to understand

Enthusiastic and committed
Prof Keegan is very passionate about the subject and is overall a very good instructor, however, the way he teaches doesn't quite resonate with the students or improve their understanding of the subject. He can afford to speak a bit faster as well.
Tries his best to explain theories and concepts in the most basic way possible but sometimes it will confuse the students instead.
Keegan has a knack for explaining abstract concepts in immaculate ways. Definitely a keeper.
