7. Please comment on any aspect of this recitation.

302710. helpful TA

obviously has a high command of math language

302720. The recitation was well-organized and all of the provided materials (worksheets, summaries, etc) were incredibly useful. The TA's comments were very helpful too, plus the work was handed back extremely quickly.

302707. TA often mistook the scope of the course. He often demanded CS2800 style proofs. I did not take CS2800 for a reason...

302700. Keegan's smart

302705. Good overall, Keegan was always one step ahead of the class so thats nice.

302712. He was very prepared for class
