

# Group Summary Report for 2010 FRESHMORE - 10.007 : Modelling the Systems World C07

---

Creation Date: **Friday, May 8, 2020**

The Group Summary Report is for freshmore, capstone or ASD studio subjects. It shows scores of the cohort/group.

## Response Table

Raters	Student
Responded	44
Invited	50
Response Ratio	88%

## Subject Evaluation

What are the best three things about this course (if any)?

Comments
The content is actually quite interesting.
matrix
Coursework is doable
nil
Cool things
1. Interesting 2. Taught me how to visualise 3D
Learning about matrices is interesting and fun
The inter-connectedness of concepts
Class activity
–
NIL
Some parts are applicable.

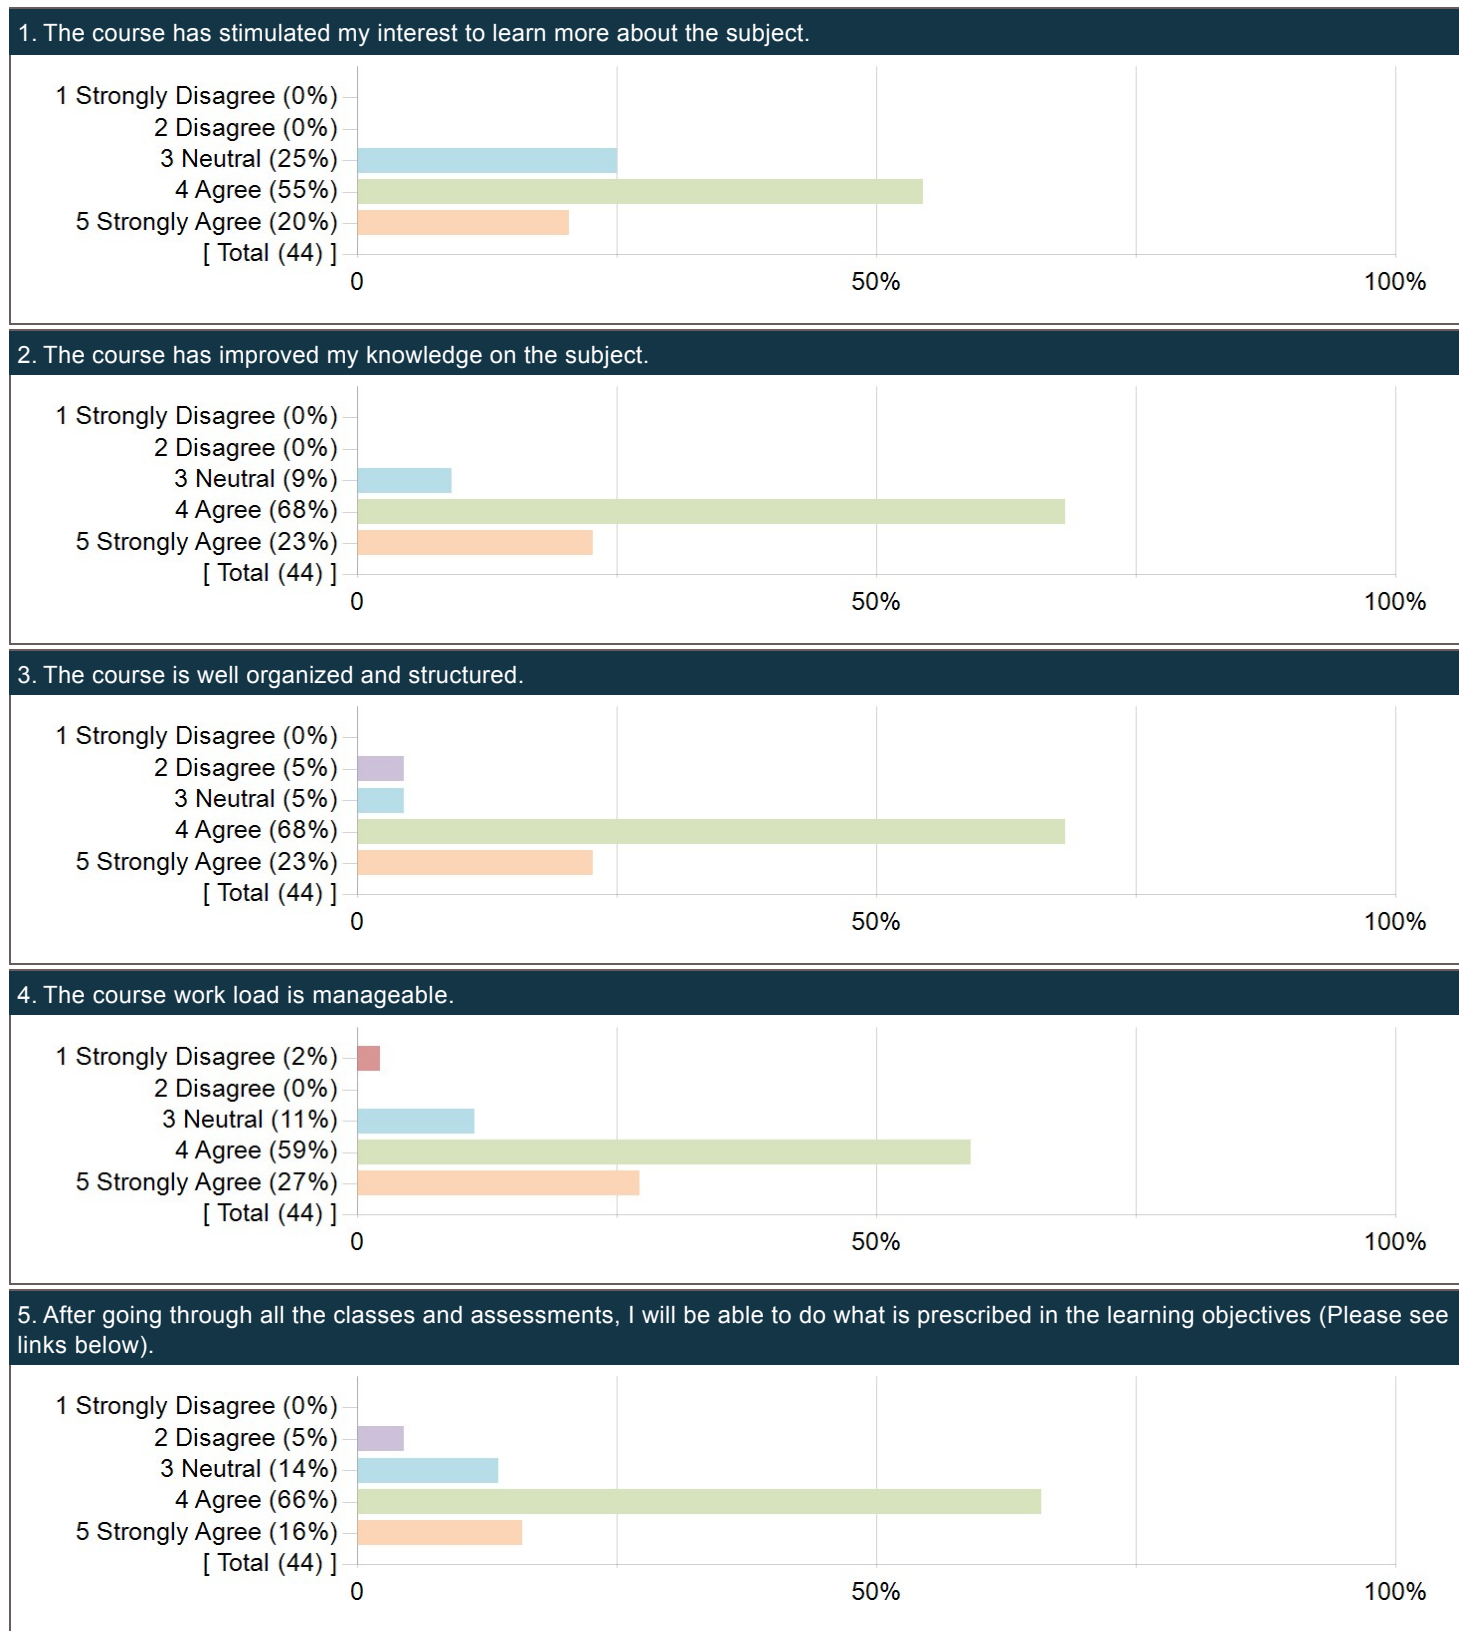

What are the three things that you would like to see improved (if any)?

Comments
More guided examples
The online videos are not very easy to follow and are not formatted well
notes and clearer explanation of the abstract concepts as the week progress
1. Either leniency on marking or letting the students know what do they have to WRITE to score
Personally, would need a more visual tool or explanation to understand the concepts
less time to do class activity
more relation to real world so we know there is a point in learning this
more examples in class hands on example
NIL
The speed and workload need to decrease.

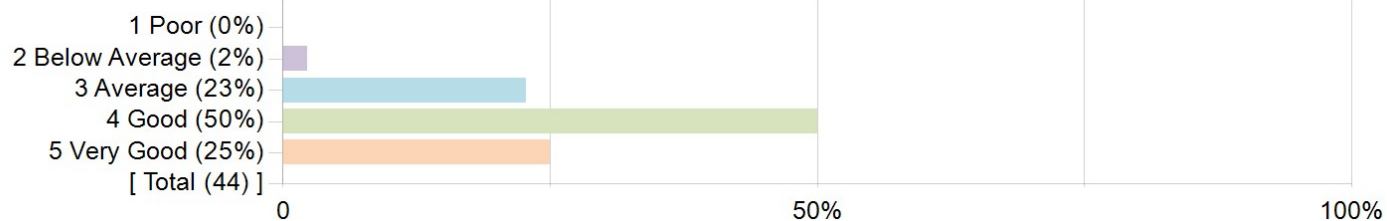

Overall scores.

	Mean	Median	Mode	SD
The course has stimulated my interest to learn more about the subject.	4.0	4.0	4	0.7
The course has improved my knowledge on the subject.	4.1	4.0	4	0.6
The course is well organized and structured.	4.1	4.0	4	0.7
The course work load is manageable.	4.1	4.0	4	0.8
After going through all the classes and assessments, I will be able to do what is prescribed in the learning objectives (Please see links below).	3.9	4.0	4	0.7

The frequency charts shows the number of times a particular answer was selected.

Overall, I would rate this course as:

## Comments about the Subject

### Comments

The digitization efforts of this course could be better. I feel like I am really struggling to understand the concepts during the circuit breaker. The other classes, apart from physical world, all moved online seamlessly.
